

# A Faster Path to Success Through Combined Bachelor's and Master's Degrees

**Regis University's School of Computer & Information Sciences** offers Combined Bachelor's and Master's Degrees\*, enabling you to complete both degree programs in only 152-credit hours by:

- Completing all necessary foundational major courses
- Planning early for the Master's portion of your education
- Allowing four Graduate courses to be counted toward your Undergraduate degree
- Utilizing a more efficient use of your credit requirements and tuition dollars

\*Excludes the M.S. in Software Engineering and Database Technologies

## School of Computer & Information Sciences Combined Bachelor's and Master's Degrees

### Requirements:

- GPA 3.0 overall and in a computer major
- Complete the Foundational Major Courses for CIS/CN/CS
- Complete all pre-requisites for desired Master's degree

**Application:** *(Only for students currently enrolled in the Undergraduate School of Computer & Information Sciences)* Complete the paper-based School of Computer & Information Sciences Combined Bachelor's and Master's Degrees Mini-Application. Contact your Undergraduate Advisor for the Mini-Application.

- Interview with Graduate Advisor
- Once accepted, the student will have the ability to enroll in four 3-credit Master's Level courses while in the Bachelor's degree program. The four 3-credit Master's level courses will be substituted for four 3-credit Bachelor's level courses in the student's degree plan.
- Financial Aid funding will be at the Bachelor's level until the Bachelor's degree is conferred.
