

BACHELOR OF SCIENCE IN COMPUTER INFORMATION SYSTEMS DEGREE PROGRAM

This degree prepares students to analyze the hardware, software, database, and networking needs of your organization, how IT initiatives will impact your company's short and long-term business goals, and how to effectively communicate your plans and research to management. Graduates of this program are prepared for careers in systems analysis and design, software engineering, database management, project management, and business process design. **The B.S. in Computer Information Systems degree program is accredited by the Computing Commission of ABET, www.abet.org.**
